- › Routes: Fixed issue with IVR tree popup appeared on click for import database
- › Updated French translation (.po) files
- › Queues: Restore queue settings option for Multi Tenant Edition
- › Settings: Fixed issue on about page with meeting if concurrent meeting is set to 1
- › IVR: Fixed issue where IVR Tree Graph is not working if French is a selected language
- › Fixed issue where server recording silent option does not apply when recording is not set to yes
- › Emergency call notifications: Skip destinations that are emergency numbers
- › Queue Reports: Handle auto mp3 conversion option
- › Meeting:
  - › Solved issue where presence status would not update when an extension is in a meeting

- › Solved issue where presence status would not update when an extension is in a meeting
- › Solved issue with dial number not appearing on default email template
- › Added “join” section to the meeting template
- › Solved issue with special HTML Characters in meeting name
- › Define hints used for on call status when joining audio via webrtc
- › Solved issue with html characters ending up in mail for meeting

## Added support for new Grandstream endpoints

**DP752**

**HT802**

**HT818**

**GXV3350**

**GXV3370**

**GXV3380**

### New Features

- › Support for meetings with video/audio conferencing, screen sharing and chat
- › Mobile Chat: Have all of your messages synced between all the devices used!
- › Security Improvements for Authentication: Provide stronger security for the account!
- › IVR Tree
- › Voicemail Notification via Call
- › Emergency Call Notification per destination
- › Special Routes per Tenant: Have the Special Services' numbers distinguished from Extensions' numbers even if they contain the same digits!
- › Greeting Access codes: Set new greetings easily by dialing one of the Access codes provided!
- › Central Phone Book for Cisco, Poly and Yealink phones
- › Wake-Up Calls
- › Short Code CallerIDs
- › Touchless Provisioning for Yealink phones
- › CallerID List (with Emergency CallerID): View the CallerID list along with all the existing Extensions
- › Add an Emergency Trunk per Extension
- › API Keys Management
- › Call Forwarding: Set different rules for Internal and External calls respectively!
- › Import and Export CSV for Operation Times
- › LCR Section on Master Tenant
