FEATURES

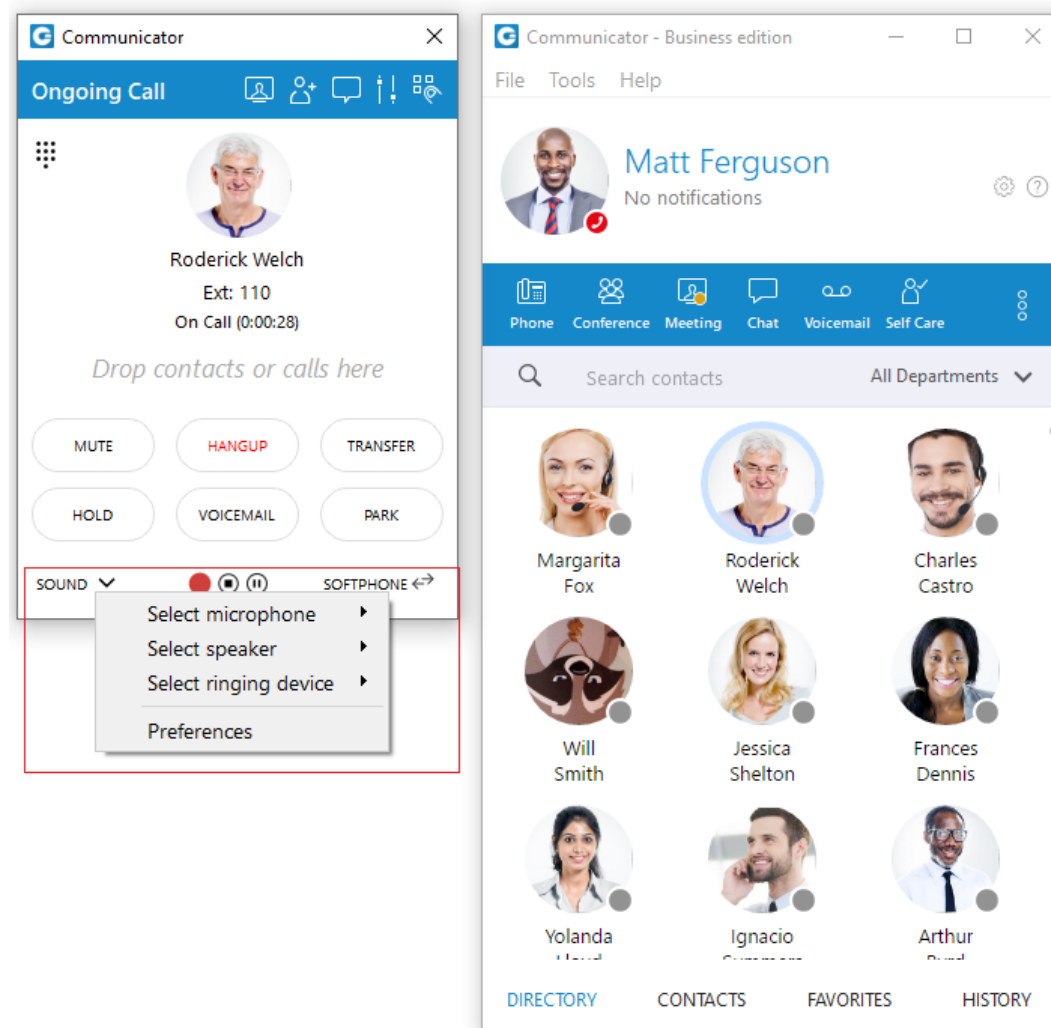

Test audio devices in Preferences

You can test your microphone while in Preferences. When in the 'Audio' section, say something and watch for changes in the microphone bar. To test your speaker or ringing device, press the 'Test' button to hear a sound on the selected device.

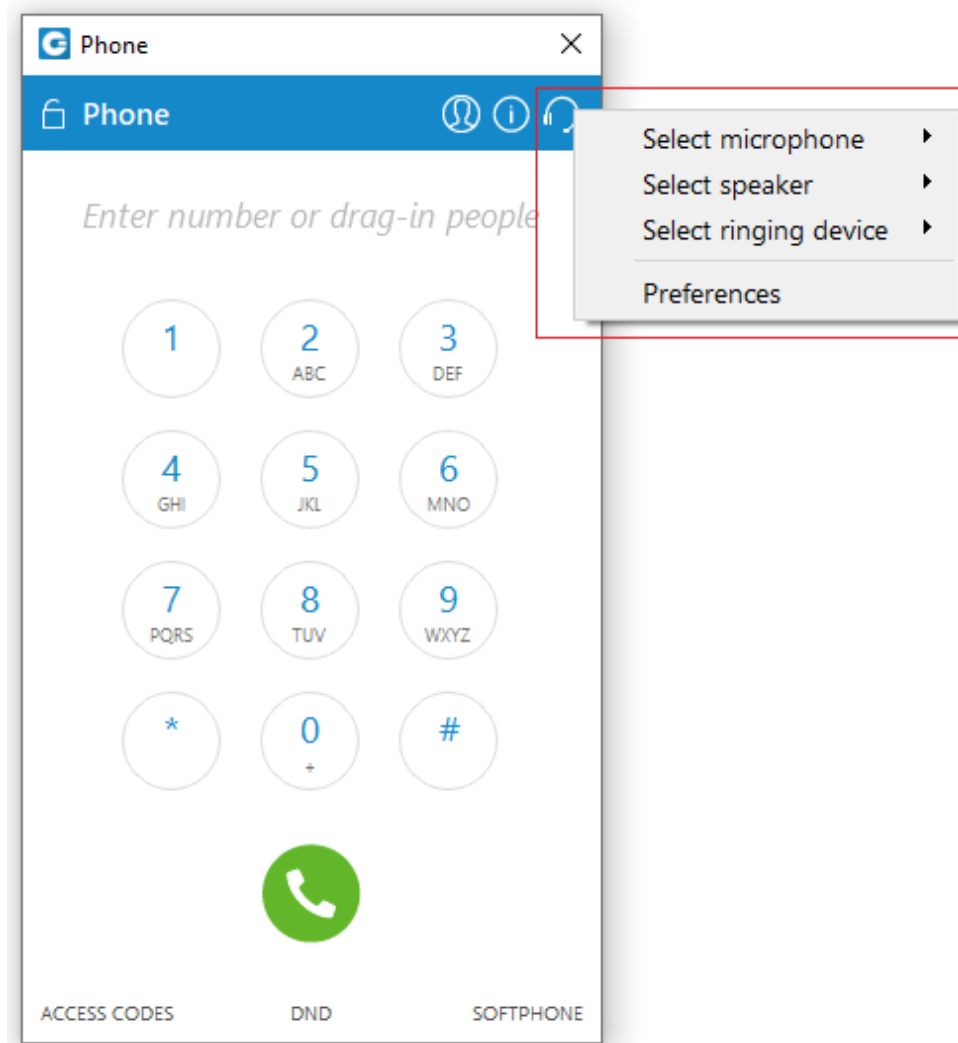

Change Microphone, Speaker, and Ringing Device While in Call

You can change your microphone, speaker, and ringing device during a call. To do that, click the sound button and use the pop up menu to change the device.

Change Microphone, Speaker, and Ringing Device from Phone module window

You can change your microphone, speaker, and ringing from the phone module window. To do that, click the headset icon and use the pop up menu to change the device.

Change Presence by Using the System Tray Icon

You can now change your current status by clicking the system tray icon and selecting from the pop up menu.

Pin Chat Message

You can now pin important messages in your 1 to 1 and group conversations. Any member of the group can pin a message. By clicking on the pinned message, you will jump to it in the conversation.

New icon annotations in meeting list and info

Small icons have been added to show if the meeting is public and/or recurring. These have been added in the “Meeting Info” section under “Type”.

The screenshot shows a 'Meetings' application window with a blue header bar containing 'Meeting List' and 'Calendar URL'. Below the header is a search bar with the placeholder text 'Search meeting by name or meeting number'. There are three tabs: 'Upcoming' (selected), 'Recurring', and 'Recent'. The main content area displays a list of meetings for the dates Tue Oct 27, Wed Oct 28, Thu Oct 29, and Fri Oct 30. Each meeting entry shows the time '09:00 AM - 09:30 AM', the title 'Meeting', and the organizer 'Android_Test_F'. To the right of the list is a 'Meeting Info' panel. The 'Meeting Info' panel includes fields for Subject, Number, Start, Duration, Status, and Type. The 'Type' field shows two icons: a blue public icon and a blue recurring icon. Below the 'Meeting Info' panel is a 'Participants' section listing 'Femi Jordanovic' and 'Android_Test_F'. At the bottom of the meeting info panel are five buttons: 'COPY INVITATION', 'SEND EMAIL', 'START', 'EDIT', and 'DELETE'.

Date	Time	Title	Organizer	Public	Recurring
Tue Oct 27	09:00 AM - 09:30 AM	Meeting	Android_Test_F	Yes	Yes
Wed Oct 28	09:00 AM - 09:30 AM	Meeting	Android_Test_F	Yes	Yes
Thu Oct 29	09:00 AM - 09:30 AM	Meeting	Android_Test_F	Yes	Yes
Fri Oct 30	09:00 AM - 09:30 AM	Meeting	Android_Test_F	Yes	Yes

Improved meeting chat interface

The meeting chat now follows the same design as the chat interface.

Close chat and participants from blue bar

You can now close chat and participants by clicking the 'X' at the top right of the chat/participants window.

Highlight speaker in grid mode

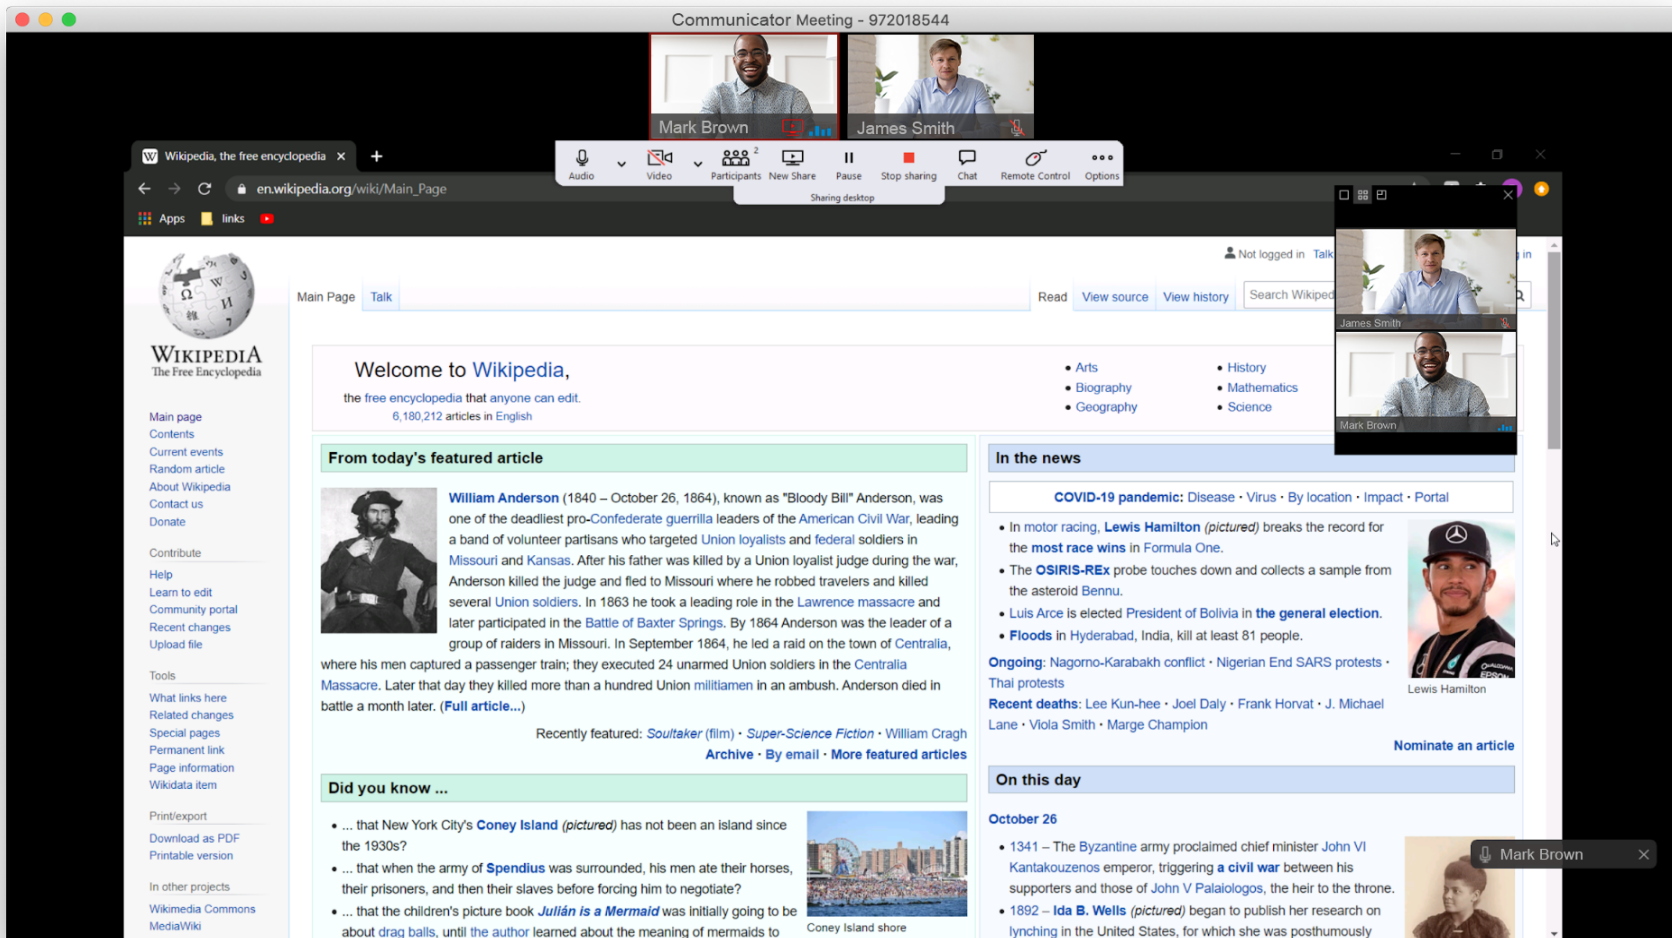

The speaker will now have a red border around their video stream to indicate they are speaking. Aside from that, the name of the current speaker will be displayed at the top of the meeting window.

Highlight speaker in viewer mode

The speaker will now have a red border around their video stream to indicate they are speaking. Aside from that, the name of the current speaker will be displayed at the bottom right of the meeting window.

When sharing a screen, the presenter will have a red icon next to their name and their video stream will be displayed first in the video stream carousel.

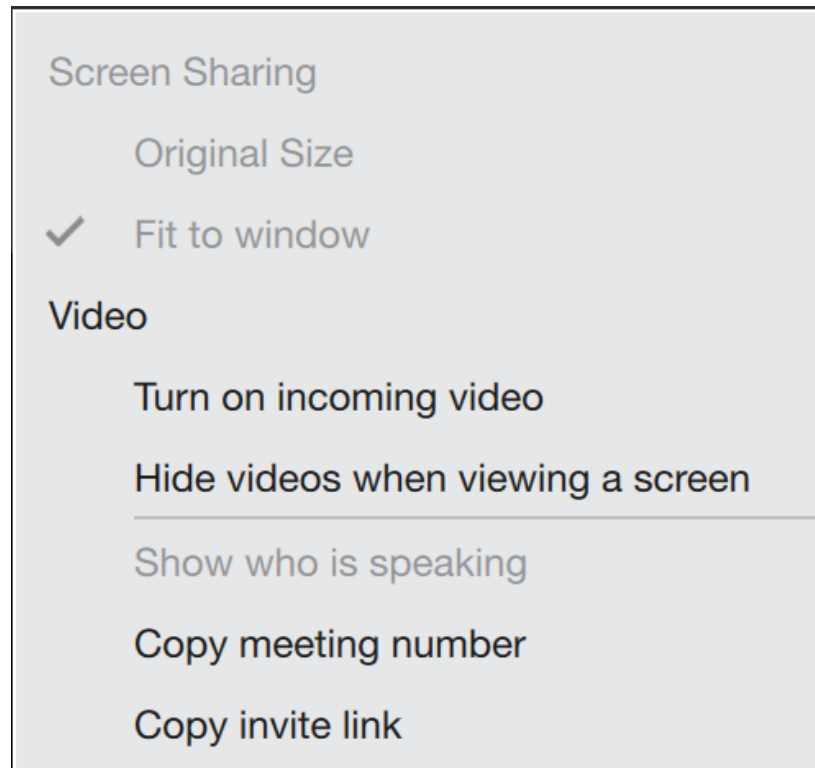

Highlight speaker in presenter mode

The speaker will now have a red border around them to show they are speaking and a red icon will appear next to the name of someone sharing their screen, also the name of the speaker will be displayed at the top and center of the window. In addition to this, the presenters video will also be displayed first.

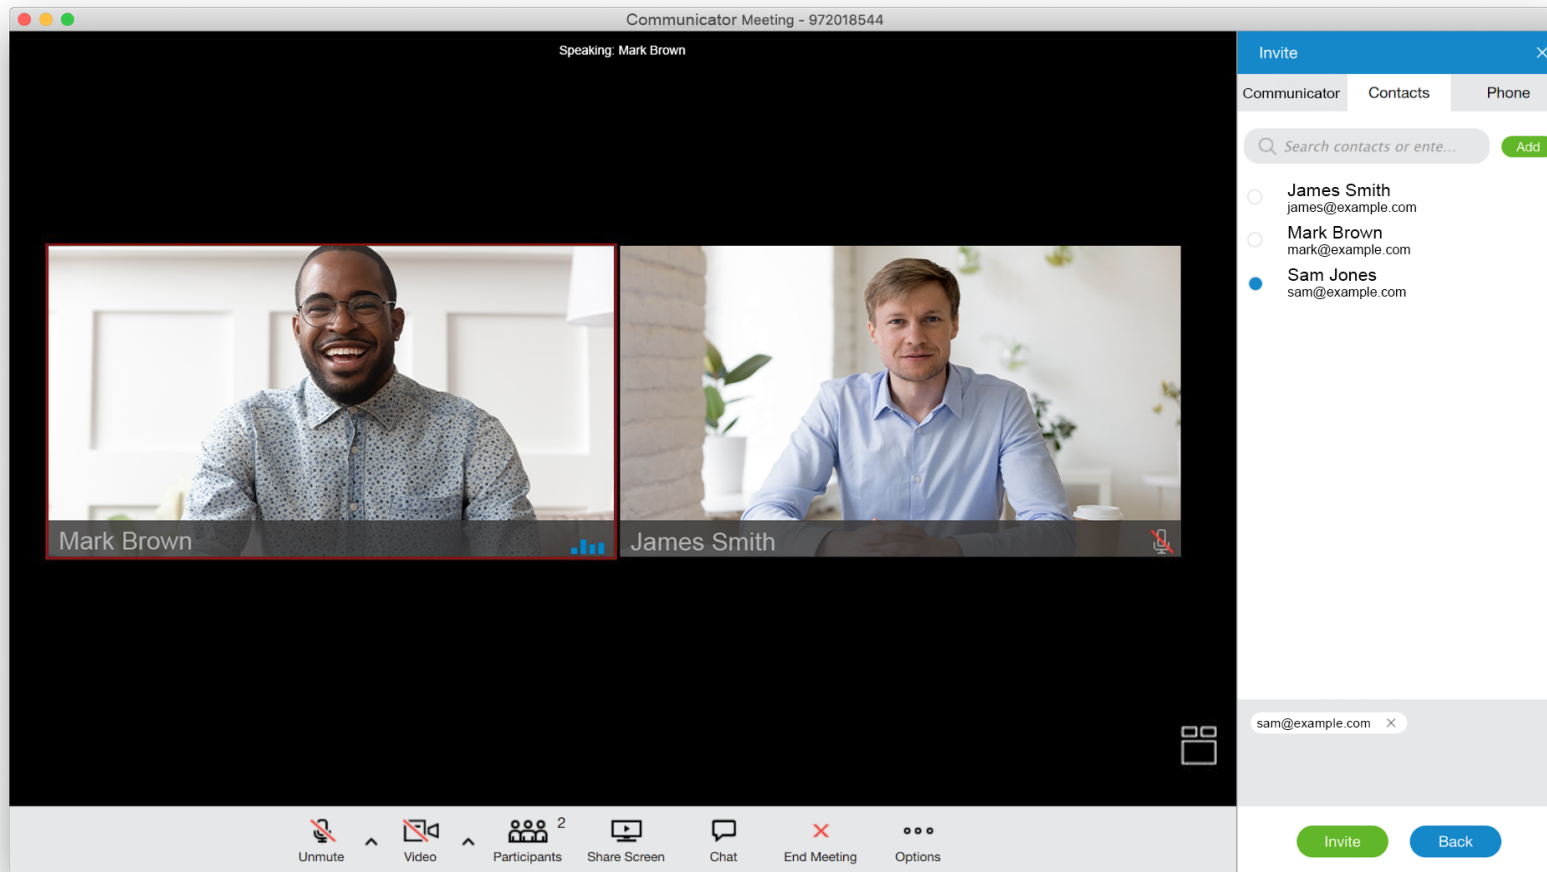

Reorganize meeting menu

The items are now organized better to group similar items together.

New UI for inviting contacts via email

The user interface for inviting email contacts to a meeting has been improved, allowing you to search and more easily manage the list of invitees.

Bug Fixes & Improvements

- › Changed 'Sennheiser' brand to 'EPOS Sennheiser'
- › Fixed an issue with 'Agent Login' dialog size when agent is a member of many queues
- › Fixed a bug where queues were not sorted by name in the transfer dialog
- › Fixed a bug where agents and users were not sorted by name in multiple dialogs
- › Fixed a bug where drag&drop call transfer from agent panel did not work
- › Fixed a bug where 'Agent Panel' would not pop on top on incoming call if previously minimized
- › Fixed a bug where new line is copied as LINE SEPARATOR when selecting text in chat
- › Fixed an issue with with rendering of some utf8 emojis
- › Fixed a bug where the main would cover 'Agent panel' if 'Bring app to front' option is enabled
- › Fixed an issue with Google contacts integration where permissions could not be granted.
- › Fixed an issue where users could not mute audio on a public meeting, if they joined audio with deskphone
- › Fixed a bug where the participant list slider would move to top when a participant joined or left the meeting
