Bicom Systems

was the first company to deliver Open Source Communications Software as a Professional Turnkey Solution in 2004.

By combining the best of open source telephony and its own proprietary software, Bicom Systems provides clients with turnkey solutions that take account of their exact needs within a very cost-effective framework.

Bicom Systems seeks to provide a unique combination of quality and value. This mix includes royalty-free software, vibrant open source communities, and custom development backed by accountable, professional support services.

Corporate & SMBs

Whatever your size today or tomorrow, you need a communications system that will drive you forward & help you grow:

- Adapting to Needs
- Collaborating
- Reducing Costs
- Unifying

Advanced Communications for years to come!

COMMSware delivers the latest technology on a stable, scalable and easy to use communications platform!

Service & Call Centers

Happy agents keep you efficient; happy customers keep you in business. First you need to be stable, but then:

- Route Efficiently
- Integrate
- Save Time & Costs
- Stay in Control

A Workhorse among communication systems!

COMMSware integrates Call Center apps and features with intuitive controls to enable superb performance and perfect call flow.

Telcos

Make sure you do not lose the next prospect or customer. You need the basics, but it is that one special request that will win the next bid:

- Stable & Reliable
- Feature Rich
- Scalable & Redundant
- Competitive

Giving customers exactly what they need as they want it!

COMMSware provides all these, but turnkey so you are freed from running your business to growing your Telco.

Governments, Health & Education

Need a safe choice of communications platform that will serve unfailingly often during mission critical moments while remaining:

- Fault-Tolerant
- Flexible
- Cost Efficient
- Easy to Use

Communications that you can rely on today and tomorrow!

COMMSware introduced highest standards in terms of stability and fault-tolerance, suitable even for Mission Critical operations.

Your Account Manager

The Bicom Systems approach is built on developing long-term relationships. These are anchored around your Account Manager. By offering pre-sales support, access to references, and advice from years of experience, we make sure you develop your business!

Reseller Programs

"Standard Resellers", "Certified Resellers", and "Distributors" have tailored programs according to the nature of their business. Training is included as part of the package and Partners are eligible to receive discounts on List Prices.

Training

Any new system needs a little guidance, but our training is organized to bring you up to speed in the most efficient manner. We also cover the 'what if' from the field.

Support

Standard Support is available Mon - Fri from 3am to 8pm EST. Our agents are trained to solve issues and have an average or three years experience in escalation procedures. 24/7 cover is available for emergencies.

You will receive:

- Reseller Marketing Materials
- Remote Training
(One day webinar and conference)
- Online Support & 24/7 Cover
- Products & Marketing info Updates
- Ongoing Account Manager Support

To get started, please create an account at www.bicomsystems.com or contact us directly for more information.
