Advanced & Powerful Economical Solution for Your Business Communications

NEW

IP KEY SYSTEMS

Bicom Systems has re-invented traditional Key Systems to use IP Technologies and VoIP.

All legacy Key Systems features are included. Additionally, we have added an optional, powerful desktop app (KSP) that allows more functionality.

Attendant Console is a multi-platform app that extends phone features to the user's desktop.

Two optional editions are available, Key Systems Panel Standard and Pro editions.
